INSTRUCTIONS TO AUTHORS

1. **The Turkish Journal of Medicine** is published every two months by Society of Internal Medicine.
2. The goal of the *Journal* is to present collective scientific knowledge via experimental and clinical studies, reviews, case reports, short reports and letters to the editor to the readers to improve the scientific background.
3. Manuscripts may be written in Turkish or English.
4. Peer review system is used for the evaluation of the submitted papers. Submitted papers are reviewed by two reviewers. The last decision about publishing the manuscript is made by Editorial Board.
5. The authors should deposit 5.000.000 TL for "the review process, post and paperwork expenses" to the post cheque account no 106310 of BİLİMSEL TIP YAYINEVİ and send the receipt together with the submitted paper.
6. The submitted manuscripts should conform exactly to below instructions in order to be reviewed:
 - a. Papers should be typed in 12 point typescript and double-spaced throughout the text on one side of a standard A4 paper.
 - b. Clinical and experimental studies and case reports should include:

First page: Title (Turkish and English), author(s), institution(s) and address for correspondence.

Second page: Abstract (Turkish and English), Key Words (Turkish and English) of at least 3 words.

Third page and after: Introduction, Patients and Methods (for experimental studies Materials and Methods, for case reports Case Report), Results, Discussion and References.
 - c. The abstract must be written according to subtitles Background, Method, Results and Conclusion.
 - d. Case reports should have short introduction and discussion sections and be supported with noticeable pictures if possible.
 - e. Reviews should have a title page and key words with no abstract. Main text should be no longer than 10 printed pages with clear subheadings.
 - f. Short reports should include title page, but no abstract. Short reports should not exceed 4 printed pages with no more than 3 tables or figures.
 - g. Clinical Presentation section presents case reports in a few sentences with clinic, radiologic, and/or laboratory figures. References may not be cited, if not needed.
 - h. Letters to the editor concerning recent publications in the **Journal** should be concise, have no abstract and limited references.
 - i. Abbreviations should be internationally accepted. Abbreviations should be defined in the text in parenthesis when first mentioned and used in the text accordingly.
 - i. Tables and illustrations should be typed on separate pages at the end of the manuscript. The figure number, title of the paper and an arrow indicating the top

must be written at the back of each figure with an erasable soft pencil. Identities of the authors and the institution should not be listed on the figures.

- j. References must be cited as numerals in brackets in the text and listed at the end of the paper in numerical order corresponding to the order of citation. When citing more than two references, only the first and the last numbers should be given, such as (2-6). Journal names should be abbreviated as listed in "Index Medicus" and should be written in full if not listed in "Index Medicus". List all authors up to four authors. For five or more authors, list the first three authors followed by "et al". Note the following examples:
